

## Milord

Come on get wise Milord 3  
Her lips tell lies Milord  
The girl that you've adored  
Has found some other guy

She just got bored Milord 1  
Now you're ignored Milord  
Deep down inside your pride  
Won't let you say goodbye

That southern belle Milord 2  
Has got a heart of ice  
Love can be hell Milord  
As well as paradise

You met her at a ball 2 lead, > 3 met her at a ball  
Her lips were ruby **red** 1:oe lips were ruby red  
Her lazy Southern drawl lazy Southern drawl  
Soon turned your noble head your noble head  
You swore you'd never part you'd never part  
Though you lived far away  
How could you know her heart  
Like other hearts would stray

Come on get mad Milord 2  
Life's not so bad Milord  
The charms of other ones  
Can make your heart forget

Don't count the **cost** Milord 1, 3  
Let her **get lost** Milord  
One **memory can** be  
A **lifetime of regret**

So let her **go** Milord, 2, 1, 3  
Come on **relax be smart**  
'Cause if you **don't, you know**  
**She'll only break your heart**

The story is the same 2 lead, > 3 story is the same  
Whenever young love grows ever young love grows  
And **no-one** is to blame 1: oe no-one is to blame  
It's just the way it goes the way it goes  
You're not the first who's found the first who's found  
That love can be unkind  
And still the world goes round  
But one heart's left behind

Come on get hip Milord 2  
And let life rip Milord  
Be sure there's plenty more  
Of loving to be done

There's chicks to **meet Milord** 1, 3  
With lips **as sweet Milord**  
And hearts to **make and break**  
**Before the race is run**

So **hit** the town **Milord** 2, 1, 3  
Come on **and be my guest**  
We'll turn it **upside down**  
**And Devil take the rest**

Lai lai lai lai lai lai unisono  
lai lai lai lai lai lai  
lai lai lai lai lai lai lai lai lai lai lai lai  
etc...

So **hit** the town **Milord** 2, 1, 3  
Come on **and be my guest**  
We'll turn it **upside down**  
And Devil take the rest unisono

Laaai laaaai laaai unisono  
lai, lai-lai, lai lai lai lai lai lai
